

# EARTHCRIPT WHITEPAPER

1

2

## **ABSTRACT**

Earthcrypt Engine facilitates cryptocurrency storage, transactions, payments and exchange for small crypto assets.

The application supports as much as ten other assets providing for spending flexibility.

Earthcrypt tokens are locked up monthly for staking payout in Ethereum.

Bitcoin wallet will integrate Segwit to reduce withdrawal charges .

Earthcrypt payment card allows users to do online transaction for small spends or payment.

There is a limit to the amount of assets you can store on our platform because our scope will only cover small assets for daily spends creating more transactions.

No limit to the amount of ECRTE TOKENS storage because we encourage out tokens to have less circulatory supply.

## **CHALLENGES AND EARTHCRIPT SOLUTION**

Earthcrypt is a small assets storage with low transaction and withdrawal charges compared to most other exchanges and wallets.

Earthcrypt small asset wallet system removes the need for kyc to asses your wallet.

Eathcrypt is safe and secured. No deposit charges.

Staking payment in Ethereum .

Earthcrypt supports other assets creating more flexibility.

No more high charges for your small assets. Keep it earthcrypted.

Integration of Fiat will make earthcrypt fastest route to your bank account.

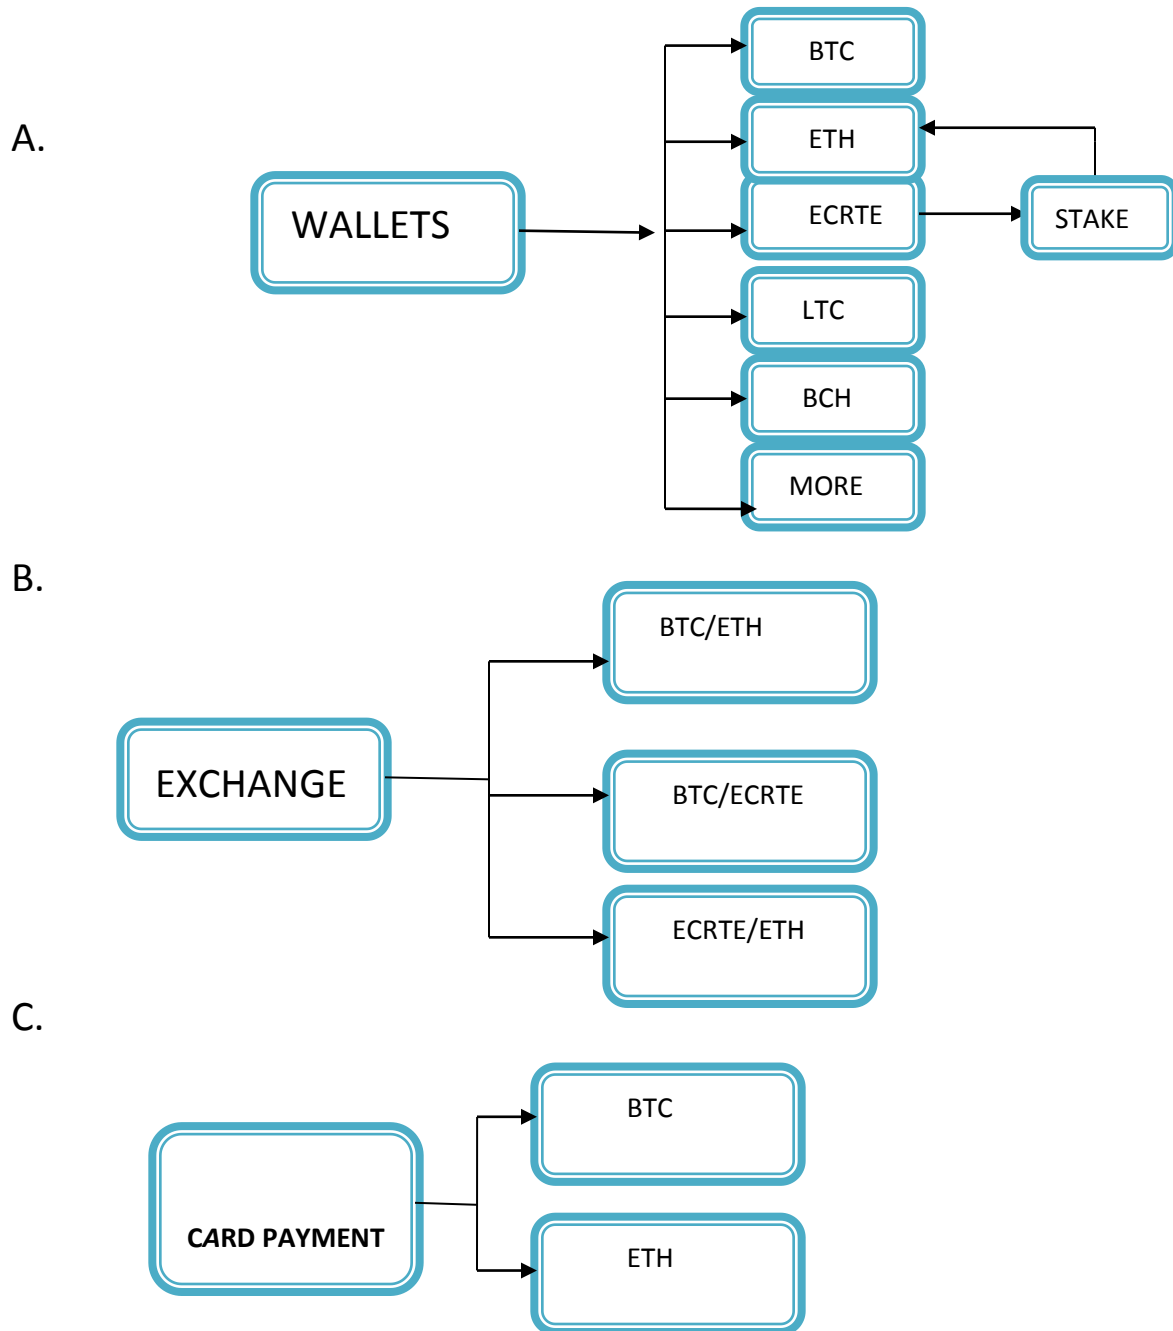

All referral payments instant .

The earthcrypt platform will be licensed globally.

We have experience traders among the team to ensure that our funds are not depleted by frequent Eth price volatility.

6

## STRUCTURE

## FEATURES OF EARTHCRIPT

- ❖ High security. Wallets highly secured with 2FA options for both email and authenticator enabled. Cold storage also considered.
- ❖ Staking of ECRTE tokens .This will help reduce supply and give ECRTE price stability. Payment of staking is in Eth .Our reserve fund will be traded until the platform is completely setup.
- ❖ ECRT application supports up to ten other cryptocurrencies.
- ❖ Withdrawal of third party assets are free except the transaction charges mined by the network.
- ❖ Earthcrypt wallet only store small assets. This will ensure we only attract daily spenders to create more transactions. Only ECRTE staking does not have a cap.
- ❖ Fiat payment integration.
- ❖ ECRcard online payment.

## MARKET POTENTIAL

Earthcrypt market is dependent on the growing market demands for crypto based assets which is perceived to be on its early adoption.

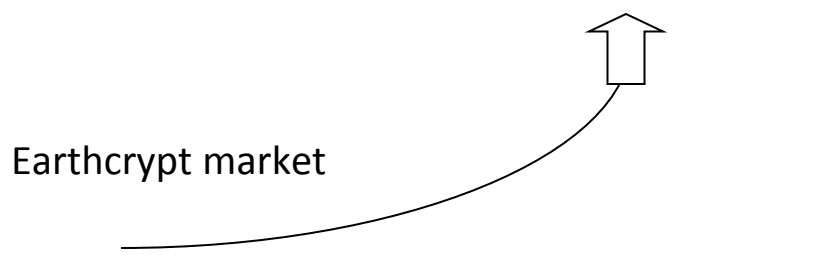

With cryptocurrency growth forecast at trillion dollars more adoption is expected and we are positioning our platform to leverage on it .

Exchanges around the world are adding thousands of users daily even after Bitcoin and Altcoins recent pullbacks in price.

The huge surge in demand for blockchain assets has created enormous commercial and market opportunities for start-ups.

Earthcrypt product is unique because it provides easy and convenient way to spend and store your crypto assets and it will be licensed globally to integrate Fiat and other payments.

We offer small asset wallet system with low transactions charges earthcrypt demand will increase because there are more lower number of transactions in entire crypto space.

## TOKEN INFORMATION

NAME:EarthcryptEngine

SYMBOL:ECRTE

DECIMAL:8

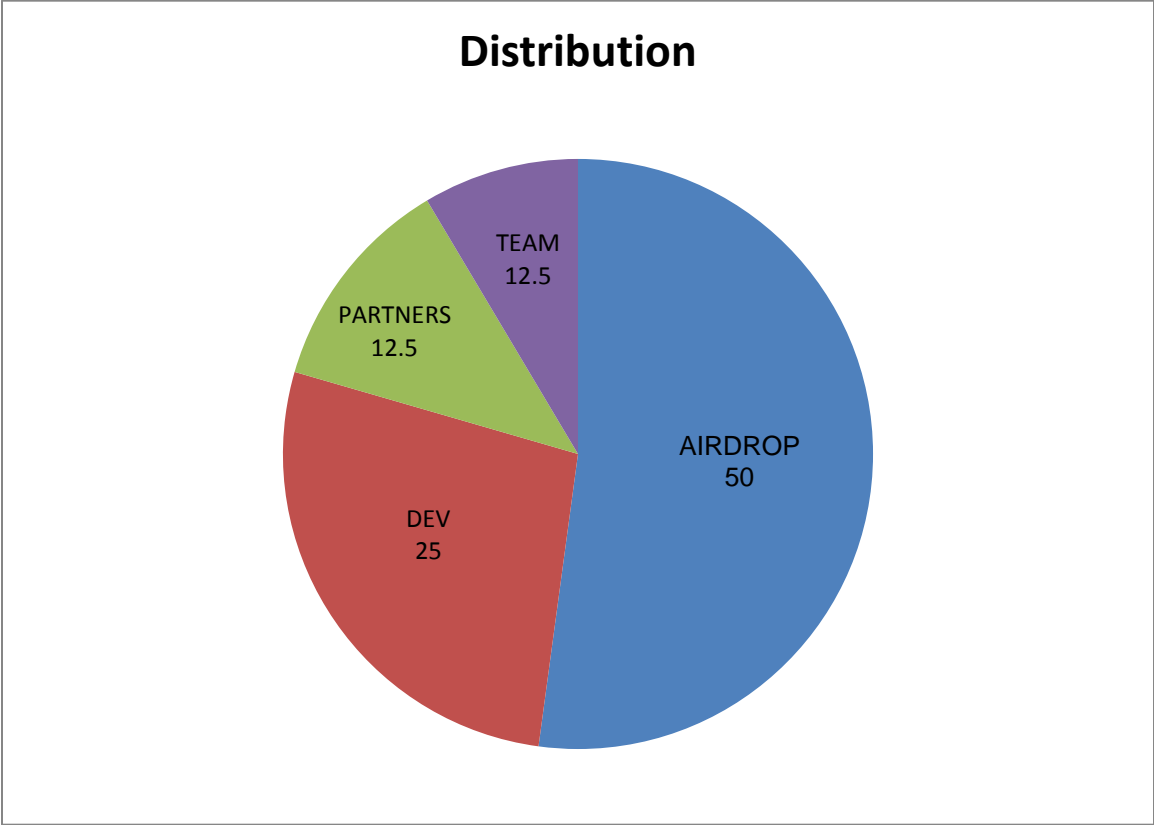

SUPPLY:8BILLION

TOKEN STANDARD: ERC-20

CONTRACT ADDRESS: 0x4543680E6164F47ca8458b5b7513C6A6879C08Df

## TOKEN DISTRIBUTION

Item:	%	ECRE
PARTNERS	12.5	1000000000
DEVELOPMENT	25	2000000000
AIRDROP/REFERAL/BONUS	50	4000000000
TEAM	12.5	1000000000
TOTAL	100	8000000000

12

## PRICE PREDICTION

We are very optimistic that ECRE token will receive a global acceptance and therefore set our price target of 1cent in one year.

Reasons:

1. Buy back plan.
2. We will burn some tokens periodically.
3. The supply of ECRTE token will equate to the supply of Ethereum according to our team set-out plan.

## CAVEAT

Crypto assets are very volatile and we do not offer any guarantee on future price and returns.
